

Cannot initialize .dll

1. Try to open excel as administrator. (Right-click excel icon and select Run as administrator)

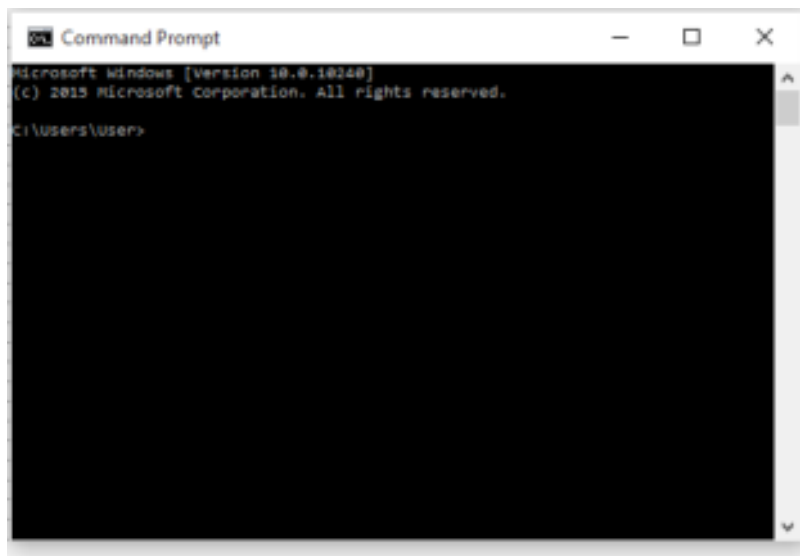

If the above will not work

2. Follow the screenshots as shown bellow.

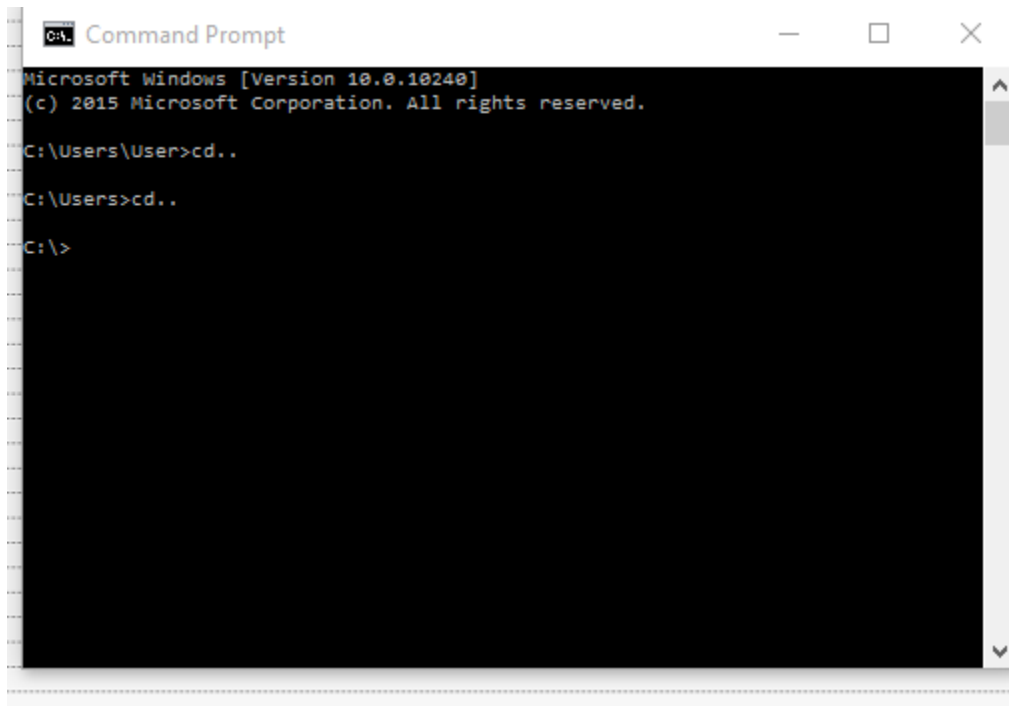

At the Windows prompt TYPE CMD. Right-click and run as Administrator

A window like below will appear

At the prompt TYPE CD.. enter. Again CD.. enter

See below.

A screenshot of a Windows Command Prompt window. The title bar reads "Command Prompt". The window content shows the following text:

```
Microsoft Windows [Version 10.0.10240]
(c) 2015 Microsoft Corporation. All rights reserved.

C:\Users\User>cd..
C:\Users>cd..
C:\>
```

Now you will type the message below exactly as it is and after that ENTER. A message saying its successful will appear

regsvr32 C:\ProgramData\Lasata\SS6_LedgerImport_103\SS6_LedgerImport_103.dll
